About

I am a first-year Computer Science student at KLH Bachupally with a strong passion for software development and problem-solving. Currently, I am building my foundation in Java and actively applying my skills through hands-on personal and collaborative projects.

To sharpen my algorithmic thinking and logic, I regularly participate in competitive programming on CodeChef. I am eager to connect with fellow student developers, mentors, and industry professionals, as well as explore opportunities to learn, build, and grow.
